

Moreland Primary School

Ride & Stride parent & student survey findings

How students currently travel to school vs. How students would like to travel to school

88%

of all families live within a 10min ride or a 20min walk of school

1 km

the average distance our families live from school. That's a..

- 10-12min walk
- 5min ride

95%

of children have a working bike

52%

of children are considered safe & competent riders

From the kids

"What is one thing you like about walking or riding to school?"

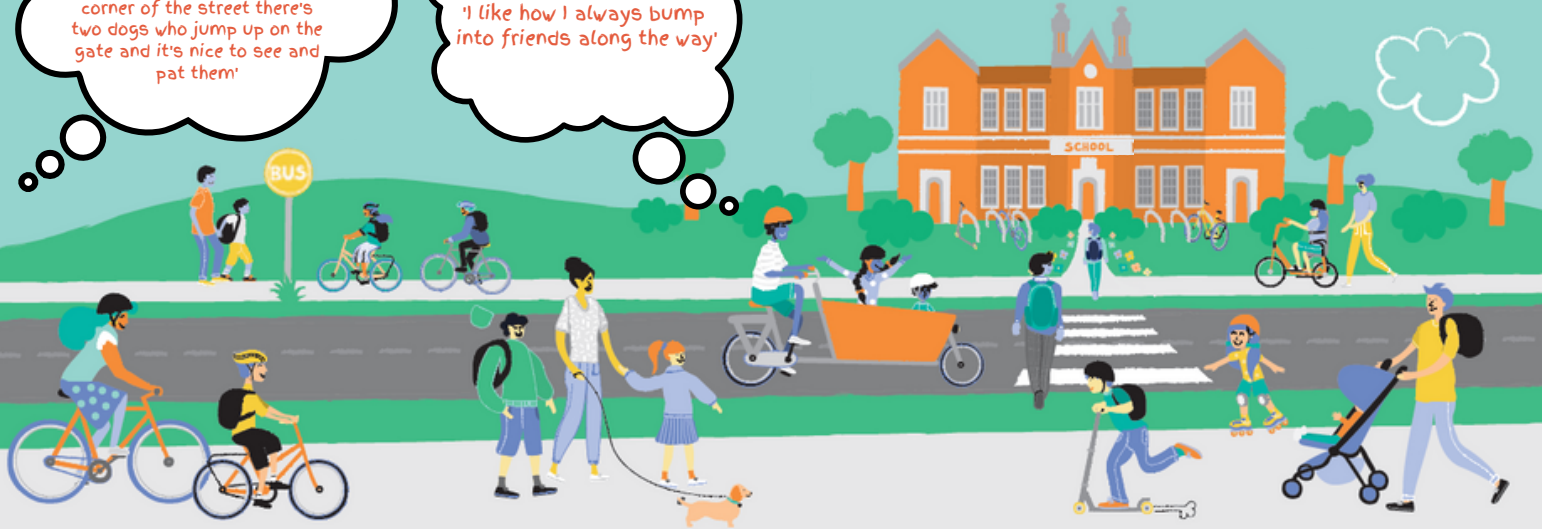

'Sometimes I walk to school with my friend and on the corner of the street there's two dogs who jump up on the gate and it's nice to see and pat them'

'I like how I always bump into friends along the way'

Top Ride & Stride areas to address at Moreland Primary School:

'What would make it easier for you & your children to walk, scoot or ride their bike to school more often?'

1. Programs to teach my child about road safety & independent travel
2. Knowledge that my child has arrived safely if travelling independently/with friends
3. Less car traffic around the school gates
4. Safe cycling education for children
5. Knowledge of safe walking/riding routes to school

Current Active Travel Rate: 56% → Target Active Travel Rate: 66%
